Profile

Ambitious and committed to continuous learning.

Professional Front-End Developer Specializing in React ,,,

• I'm a highly skilled Front-End Developer with a strong focus on creating dynamic and responsive web applications using React. With over 2 years of experience in the industry, I have a proven track record of delivering high-quality, user-friendly, and efficient websites.

What I Offer:

- Custom React Development: Tailored solutions to meet your specific project requirements.
- User Interface (UI) Design: Creating intuitive and visually appealing interfaces.
- API Integration: Seamlessly connecting your web app with back-end services.
- Code Reviews & Refactoring: Enhancing existing codebases for better performance and readability.
- Technical Support & Maintenance: Ongoing support to ensure your application runs smoothly

Education

2020 – 2024

Arish, Egypt

Bachelor's degree in Information Technology

Sinai University 📍

I joined college in 2020 and graduated in 2024, receiving a very good general grade with a grade CGPA of 3.2.

Projects

Hippo Movies 📍

Launched a user-centric movie companion platform, integrating advanced functionalities that elevated overall site satisfaction by 25%.

Key features and functionalities:

- Top Rated Movies: Discover the best movies out there.
- Popular Movies: Find out what's trending.
- Movie Details: Get all the information you need about your favorite films.
- Recommended Movies: See suggestions based on your tastes.
- Cast Information: Learn more about the actors and crew.
- TV Series: Explore series details, seasons, and episodes.
- Search Functionality: Easily find movies or series by name or keywords

MomentTravel

Crafted and executed 150+ unique travel plans, significantly broadening clients' horizons and enhancing cultural understanding.

- User:
 - Search and Booking: Users can search for available trips based on various criteria such as destination, date, and budget. They can also book trips directly through the website.
 - Browse Details: Users can view detailed information about trips, including hotels, activities, and prices.
 - Create Account: Users can create a personal account to save their preferences, manage their bookings, and track travel deals.
 - Rate Trips: After completing a trip, users can rate it and leave reviews to help other users.
 - Contact Support: Users can contact the support team for any questions or issues.
- Company Owner:
 - Add and Manage Listings: Company owners can add new listings for their trips, edit existing ones, and delete them.
 - Set Prices and Offers: Company owners set prices for their trips and create special offers.
 - Track Bookings: Company owners can track bookings made for their trips.
 - Communicate with Customers: Company owners can communicate with customers who have booked their trips to answer their questions
 - Analyze Statistics: Company owners can view statistics on the performance of their trips, such as the number of bookings and revenue.
- Admin:
 - Manage Website: The admin has control over all aspects of the website, including adding, editing, and deleting users and companies.
 - Review Listings: The admin reviews listings submitted by companies to ensure they meet the website's standards.
 - Resolve Technical Issues: The admin handles any technical issues that arise on the website.
 - Update Content: The admin updates content on the website, such as adding new information about destinations.
 - Analyze Data: The admin analyzes website data to identify trends and patterns, and to improve website performance.

Taste-Crafted

Developed an extensive food and cooking web platform, enriching user experience by providing access to over 100,000 recipes, resulting in a 40% annual growth in user base.

Key features and functionalities:

- Extensive Recipe Database: Users can explore a wide variety of recipes, categorized by cooking time, ingredients, calories, diet, health, meal type, dish, and cuisine.
- Search Functionality: A powerful search bar allows users to quickly find recipes based on specific keywords or criteria.
- Recipe Details: Each recipe page provides detailed information, including ingredients, instructions, and nutritional facts.
- Filters: Users can refine their search results using various filters, such as cooking time, dietary restrictions, and cuisine.
- Saved Recipes: Users can save their favorite recipes for easy access later.
